Vermillion Institute Minute Books
Preservation Project

The following work has been completed for this project.

1. All eight minute books have been microfilmed at the Conservation Laboratory at Bowling Green State University.
2. Preservation rare book covers have been made for the minute books while they were at the microfilming laboratory.
3. Microfilm has been digitized. Over the next several weeks the images are to be sorted and uploaded to the Internet Archive website at *archive.org*.
