

## **Historical Society of Greenfield**

### **Accessing, Organizing, and Preserving Our Photographs**

Judy Schmidt  
937 981-2905  
hschmidt@starband.net

#### **Summary**

The Past Perfect software was purchased and installed on our computer. As we searched through the library and file cabinets, we found 800 photographs and pictures to catalog. Each photo was entered into the computer with an accession number and any history we had. Then it was put into a acid free protective sleeve and filed in the photograph cabinet. We labeled file folders so that photographs were easy to find. We have 80 file folders with 10 photographs in each file.

We have run a copy of our seventy page photograph report for you. We have included with this report some pictures of the cabinet, file folders, and photographs in our collection. The seventy page photograph report is now in a notebook in acid free sleeves on the top of the file cabinet. Visitors can browse through it and discover photographs they want to view. Or, they can ask for a specific topic and we can locate it by using the search function with the Past Perfect software on the computer.

#### **Narrative**

This grant from the OHRAB has been a great jump start to our Greenfield Historical Society. It has motivated us to begin organizing the library and to start using more archival safe materials.

The computer program was a challenge to learn at the beginning, but is now amazing because it allows us to find related photos in a very short amount of time. We have already had success finding photos for two patrons during our work. We have also used the computer program to help find photographs for our newsletters this past year.

In the past years many times a photo was given and no record was written about who donated it or any information on the history of the photo. The project has helped us discover what background information we want when a photograph is donated. We will continue to try to find more history of these photographs that we have filed as we sort through the library collections.

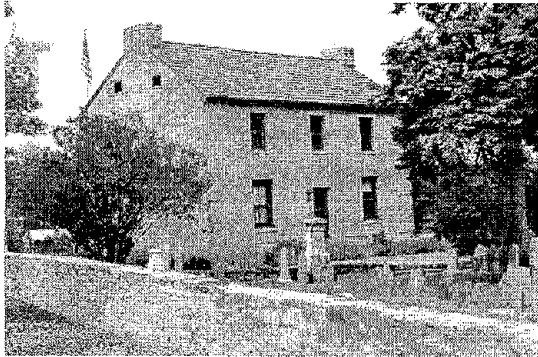

We found that the project worked best when we worked as a team of two. Once the photographs were located, we just needed quiet time to catalog them. However, once in a while, we put a photograph aside to ask the other workers for more information. Our job now is to teach others how to use the computer program to locate pictures and to enter new acquisitions. Some of our older people are shying away from this computer work.

We are excited about the results of this project and look forward to continuing our work on the library collections. We know that we will find more information and photographs as we work.

The Greenfield Historical Society would like to thank OHRAB for the grant and we truly appreciate the financial help to jump start our library work. It was a fabulous opportunity for a small town organization.

### Evening at Travellers Rest

We have noticed that during our Sunday Dinners our guests enjoy sitting and visiting with friends. This led to the idea that we should host an evening for people to get together and just visit. After much brainstorming, we came up with "An Evening at Travellers Rest" for June 16. The evening will include desserts (at least one sugar-free), beverages and visiting time. We will possibly have live background music to round out the evening. For a donation of \$5.00 guests can come, relax, visit with friends, have dessert and be entertained all in the quiet atmosphere of the Travellers Rest patio. The evening is scheduled to begin at 7 PM, so mark your calendars and watch the various news media for details.

### 1969 Movie

Some of you probably remember a movie about Greenfield that was made back in 1969 and shown at the arts festival that year. You might have even worked on it. The historical society has some of the original material from the work on that movie including scripts, working copy of the film and soundtrack. At present time we are having a digitized copy made by Scene Savers of Covington, Kentucky, the same place that did our 1929 film.

### Grant

In February, Judy Schmidt, our assistant treasurer, submitted a proposal to the Ohio Historical Records Advisory Board (OHRAB) and on March 15 we were awarded a grant for \$1835. The grant is designed to organize the society's photographs and make them more available for the public to view. We purchased Past Perfect, a software program which keeps a digital record of our photographs. Each photo is numbered, given a protective sleeve and filed in a new file cabinet purchased with the grant funds.

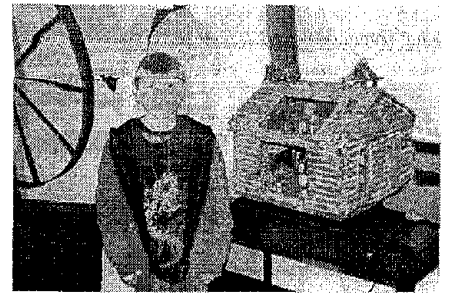

We are really excited about this grant which is supported in part by an award from the Ohio Historical Records Advisory Board through funding from the National Historical Publications and Records Commission (NHPRC), National Archives and Records Administration.

### Visitors

We always enjoy having visitors. We have had some really interesting ones these past months. Hugh S. Fullerton III from Texas visited recently and the conversation was on his Fullerton ancestors. A few weeks later we received a book written by his ancestor, Hugh S. Fullerton.

James Scott from Indiana stopped to research his Ferneau family. He shared some material on the Ferneaus.

A couple months ago, Landan Wheeler, a second grader at Greenfield, and his mother stopped by for some information on E. L. McClain for his school project.

Just last week the Rainsboro fourth grade classes of Mrs. Unger and Mrs. Teeters stopped by. We presented a program on Greenfield manufacturers and inventors that fit into their curriculum.

### Memberships

You've heard it many times by now, "I have some good news and some bad news." That's the case with membership. The bad news is that some of you have not renewed your memberships for 2012. You are receiving a membership renewal form with this newsletter. Also, this is your last newsletter unless you renew again. Please renew as soon as you can.

The good news is that we have 256 members as of May. If the 36 members renew soon, we will only be 8 away from our goal of 300. That would be 27 more members than last year. Wouldn't that be awesome!!!

### Butterfly Garden At Konneker Education Museum

A new butterfly garden has been planted across the front of the Konneker Education Museum on South Street thanks to a donation from the Konneker family. The new flowers are an addition to the dogwood trees planted last year.

Earlene Scott, Marilyn Raike and Shirley Shields enjoy a laugh at the Spring Tea.

The Greenfield Historical Society is hosting its next Sunday dinner on February 3, 2013, from 11:30 am - 1:30 pm at the Grain and Hay building on the east end of town. The meal will be smoked ham, cheesy potatoes, waldorf salad, green beans or succotash, roll, and pineapple upside-down cake. It will be served by waiters and waitresses with dinner plates and linens. Come enjoy a great meal and wonderful company.

The society also wants to make you aware of a great project that has been going on this year. In March 2012, we received a grant for \$1835.00. This project was supported in part by an award from the Ohio Historical Records Advisory Board, through the funding from the National Historical Publications and Records Commission (NHPRC), National Archives and Records Administration. This money helped to jump start accessing, organizing, and preserving 800 different photographs and pictures in our library. All photographs have been given an accession number with the new computer program, put into a acid-free protective sleeve, and filed into a new photograph file cabinet. The computer program can search by title, category, or name of a person.

The society is excited about sharing these photographs with people in the area. In March when we resume regular hours on Thursday afternoon from 1-4 pm, we invite all to come down to Travellers Rest to view the collection.

This announcement was sent to Hillsboro/Greenfield, Washington CH, Wilmington, and Chillicothe papers for print the week of January 27. It was also on the Greenfield and Hillsboro radio stations for the same week.

				<p>Frank Lohr and Sarah Clenedris Harvey. This picture was taken with "Billy" pet lamb that I raised on bottle in our back yard. Billy and I posed as "Mary and the Lamb" in the gymnasium to dedicate the new Methodist Church which later burned to the ground. The present church was built later. Several little girls also posed, one was the little Hanawalt girl and Lillian Norton were the only two I remember. Louise was born in Greenfield 1898 and attended the public school through the 8th grade there. Mr. Patterson was superintendent and Florence Kelso was teaching 8th grade. I graduated from High School in South Charleston with the class of 1917. Mr. Jones photo gallery was on Jefferson street south below Heidingsfields mens store where this picture was taken."</p>
